

Supplemental Fig. S1. A scatter plot between estrogen receptor (*ESR*) genes and thyroid cancer-related gene signatures. Associations of (A) thyroid differentiation score (TDS), (B) *BRAF*^{V600E}-Ras score (BRS), and (C) M2 macrophage score with *ESR1*, *ESR2*, and *ESR1/2* ratio were displayed with *BRAF*^{V600E} status and approximate age. NA, not applicable.
